**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 11-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Grimmer et al. 3100452.

Grimmer discloses (see fig. 1-2) a device for a tool string for insertion in a well, comprising a brake nose (end at 20) arranged at a leading tip of the tool string and a landing sleeve (at 12) configured to receive the brake nose is connected in a locking manner to a well tubing (at 11).

3. Claims 23,25,27-28 are rejected under 35 U.S.C. 102(b) as being anticipated by Davis 4735402.

Referring to claims 23,25,27 and 28, Davis discloses a braking device (fig. 6) for limiting a velocity of a tool string (at 238), comprising: a cylindrical housing (48) connected to the tool string; and a brake spindle (68) comprising first (top portion of element 262) and second (bottom portion of element 262) braking sections that are labyrinths to reduce a velocity of a tool string and a latch ring (58) that surrounds the brake spindle and protrudes into an annulus at a leading end of the cylindrical housing.

***Allowable Subject Matter***

4. Claims 13-22,24,26, and 29-30 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

5. Applicant's arguments with respect to claims 11-12 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Giovanna M. Collins whose telephone number is 571-272-7027. The examiner can normally be reached on 6:30-3 M-F.
